

2009 Graduate Fellowships

POPULATION DYNAMICS & MARINE RESOURCE ECONOMICS

National Marine Fisheries Service-Sea Grant Joint Fellowships

The NMFS-Sea Grant Joint Graduate Fellowship Program in Population Dynamics and Marine Resource Economics is designed to help Sea Grant fulfill its broad educational responsibilities and to strengthen the collaboration between Sea Grant and the National Marine Fisheries Service (NMFS). Sea Grant and NMFS, with required institutional matching funds, expect to support at least four new Fisheries Fellows in Population Dynamics and Marine Resource Economics in FY 2009. Fisheries Fellows will work on thesis problems of public interest and relevance to NMFS and have summer internships at participating NMFS Science Centers or Laboratories under the guidance of NMFS mentors.

Terry Goss

Eligibility

The Population and Economics Fisheries Fellowship is available to US citizens who are graduate students enrolled in Ph.D. degree programs in academic institutions in the United States and its territories.

Application

The application deadline for submitting fellowships to the Maryland Sea Grant office is January 20, 2009. For details about contents of application package and Maryland Sea Grant contact information, visit:
